Volume XVII Part 1 1967

Small-Signal Analysis of Fluidic Circuits. ----L.B. Taplin and A.A. Seleno

Invariants Associated with Plane Curves ----G.L. Shurbet and Harold W. Milnes

Book Review ----Satya D. Dubey

Volume XVII Part 2 1967

Instability Potential of High Speed Gearing ----John G. Bollinger and Ralph J. Harker

Multidimensional Distributions of Invariant Vector Functions ----Harold Sackrowitz

Concerning the Exceptional Case in Hessenberg's Method ----Tse-Sun Chow and Harold Willis Milnes

Volume XVIII Part 1 1968

A Nonlinear Theory of Multisandwich Shells ----Robert Schmidt

Note Concerning an Improved Givens' Method ----Harold W. Milnes and T.S. Chow

Error Rates in Tables of Indefinite Integrals ----Melvin Klerer and Fred Grossman

Volume XVIII Part 2 1968

Chebyshev Approximation Applied to Large Deflections of Elastica
----Harry H. Denman and Robert Schmidt

A Modification of the Krylov-Bogoliubov Method for Linearly-Damped Oscillatory Systems ----H.H. Denman and A.D. Anderson

Theories of Nonlinear Bending and Buckling of Multisandwich Plates
----Anthony G. Vasek and Robert Schmidt
